Model Town Link Road Lahore
Lahore, Pakistan

I have 2 year of experience as web developer. I intend to enhance my skills and strengths under your true professional, mature and specialized environment of web development. My learning skills, the attitude of taking things as a challenge and devotion with programming, make me feel that it is the right place for me to enhance my professional knowledge. As you can see my cv, I have completed my graduation from the COMSATS. Also, I have worked in different organizations from the last couple of years as web developer. I believe that the knowledge and skills built up during this time make me the perfect one to serve this organization. Moreover, I am technology independent so I able to work on every technology.

I have developed efficiently many projects mentioned in my cv. Besides these, I want to mention i have very well experience with PHP,JS and MySQL and i have good knowledge about frontend designing as well.
